PROJECTS

DevFlow   Oct 2024
- DevFlow is an app similar to StackOverflow, built using Next.js 14 with Server Actions and a variety of other technologies. This app facilitates developer collaboration and community building.

Full-stack Gastronomy Reservation System   Jun 2024
- Developed a Full Stack Hotel Management Site with Next.js, React, Sanity.io, Tailwind CSS, and Stripe for bachelor thesis.

Image Search Web-app | *HTML, CSS, JavaScript, API*   Oct 2023
- Used web scraping techniques to gather non-commercial images and send them back to the user.

QR Code Generator | *JavaScript, Node.js*   Mar 2023
- Used Node.js and JavaScript runtime environment to generate QR codes. This project simulates scenarios where phone access is unavailable.

Personal Portfolio | *HTML, CSS, JavaScript*   Jul 2022
- A responsive portfolio website serving as my personal introduction.
